PUBLISHED BY AUTHORITY

No. 39] NEW DELHI, THURSDAY, JUNE 15, 1950

MINISTRY OF COMMERCE

PUBLIC NOTICE

IMPORT TRADE CONTROL

New Delhi, the 15th June 1950

SUBJECT.—*Licensing procedure for Textile Machinery falling under S. No. 4 and 5 of Part III of the I.T.C. Schedule required for the Cotton Textile Industry.*

No. 35/ITC/PN 50.—In partial modification of the revised scheme for licensing imports of Capital Goods as laid down in Public Notice No. 21(17)/ITC/48 dated the 10th April 1948 it has now been decided that para 1 (b) and para 2 of that Notice will not apply in the case of textile machinery and component parts thereof required for Cotton textile industry. In the case of the latter the following revised Capital Goods Scheme is notified:—

All textile machinery and component parts thereof as specified in the appendix annexed hereto and falling under S. Nos 4 and 5 of Part III of the I.T.C. Schedule will be treated as Capital Goods irrespective of the value of the machines either individually or collectively and whether imported by actual users or by established importers.

2. Applications for import of Capital Goods as specified in the appendix to this Notice should be made in the special Capital Goods application form and submitted in duplicate to the Deputy Chief Controller of Imports (Capital Goods), Bombay.

3. As the Public Notice of the 10th April 1948 has been incorporated in:—

(a) Ministry of Commerce Public Notice No. 1(1)ITC/50, dated the 25th February 1950 regarding the principles governing the issue of import licences for January-June 1950; and

(b) Ministry of Commerce, Public Notice No. 14-ITC/(PN)/50, dated the 15th June 1950 in regard to principles governing the issue of import licences for the July/December 1950 period. Those public Notices should be read as amended to the extent indicated in this Public Notice.

4. Applications which have already been submitted will be dealt with according to the revised procedure stated above and it is not, therefore, necessary for fresh applications to be made.

The following Textile Machinery and Component parts thereof should be treated as Capital goods irrespective of the value of the machines either individually or collectively and whether imported by consumer or importing firm.

MACHINERY REQUIRED FOR COTTON TEXTILE INDUSTRY

(a) COTTON SPINNING MACHINERY.

1. *Mixing and blow room machinery.*
2. *Card room machinery.*
 - (a) Carding engines.
 - (b) Card grinding and mounting equipment.
 - (c) Vacuum stripping plants for carding engines.
3. *Combing machinery.*
 - (a) Re-needling equipment.
4. *Drawing Frames and Speed Frames.*
Such as slubbing, intermediate, roving and jack roving frames.
5. *Ring spinning frames.*
 - (a) Warp and weft ring frames.
 - (b) Doubler winding and twisting frames.
 - (c) Tubular Banding Machines
 - (d) Testing room machines and apparatus.
 - (e) Roller covering, grinding and mounting equipment.
6. *Bobbin stripping machines.*
7. *Waste cleaning machinery.*
Roving waste opener, thread extractor, staple fibre cutting machines, Willow Machines.

(b) COTTON WEAVING MACHINERY.

1. *Preparatory.*
 - (a) *Winding machine* all sorts.
Such as colour winding, grey winding, cheese winding, cone winding and also pirn winding either high speed or automatic.
 - (b) *Warping machines.*
High speed and ordinary with ordinary and magazine creels.
 - (c) *Sizing machines.*
Cylinder or hot air sizing machine.
 - (d) *Warping reaching-in-tieing and drawing-frames plus weaver's Knotters.*
2. *Looms.*
 - (a) Plain, automatic, Drop-Box or circular box looms.
 - (b) Tape and ribbon looms.
 - (c) *Looms.* Attachment such as Dobbies, Jacquards, Warp Let-Off Motions, Drop-Box Motions, Special Tappets, Card Punching Machines, Card Cutting Machines, Repeating Machines and dacing machines.

(c) BLEACHING AND FINISHING MACHINERY.

Such as gas singeing machines, cloth shearing machines, washing chemicking, souring machines, squeezing, scutcher, water mangle, starch mangle stentering or belt stretching, cylinder drying, or hot air drying, damping, hydro-extractor, felt calenders, friction and finishing calenders, schreiner and embossing calenders, cloth mercerising plant with caustic dye cooling plant, yarn singeing and mercerising machines with dye cooling plants. Yarn and cloth brushing machines.

(d) YARN AND CLOTH DYING AND PRINTING MACHINERY.

(a) *Dyeing.*

(i) Hank dyeing, cheese, cone, beam, loose cotton card sliver and flyer bobbin dyeing, drying extracting and other equipment.

(ii) Dyeing Jigger Machines,
Khaki, Aniline and sulphur dyeing plants.

(b) *Printing.*

Cloth printing machine and equipment such as printing drying, ageing, washing, soaping, drying, roller-feeding and colour mixing machines.

(c) *Copper roller engraving machines and equipment.*

Such as—Pentagraph machines, mill engraving machines, clamping machines, etc.

(e) PACKING AND FOLDING MACHINERY.

Reeling machines, folding machines, inspecting and measuring machines, stamping machines, bundling press baling press, yarn conditioning machine.

COTTON WASTE SPINNING, WEAVING AND FINISHING MACHINERY.

(a) *Opening and cleaning machinery.*

1. Hard waste breaker, thread extractor machines, rag tearing machine, tenter hook willow machine, spiral willow machine, willow machine.

2 *Carding and Spinning Machinery.*

Breaker carding engine with or without hopper feeder, finisher carding engine either with condensers or ring doffers, derby doubler machine, slubbing frame, intermediate frame, mule spinning machine or ring spinning machine chappon frames and box frames.

(b) *Weaving and Preparatory Machinery.*

1. Preparatory plus looms: winding machines, warping machine looms.
2. Finishing: Hydro-extractor machines, mechanical dyeing, and drying machines, raising machines, calendering machines.

KNITTING MACHINERY FOR COTTON.

(1) *Preparatory.*

Bobbin winders, cone winders, bottle bobbin winders, Brass bobbin winding machines, slip winding machines.

Doubler winding machines, twisting machines and warping machines.

(2) *Knitting machines.*

Circular machines, rib top machines, linking machines, Flat-Bed machines, warp knitting machines, mosquito net manufacturing machines.

(3) *Stitching machines*

Overlock machines with cutters, chain stitching machines and hem stitching machines.

(4) *Bleaching, finishing and dyeing machinery.*

Open and pressure boiling kiers, bleaching and dyeing machines in rope form, hydro-extractor machine finishing calender machines, dressing frame and guillotine cutters.

DYEING AND PRINTING MACHINERY.

Mechanical dyeing and drying machines, drying jigger machines including printing, drying, ageing, washing soaping, drying, roller forcing and colour printing machines.

HUMIDIFYING AND AIR CONDITIONING EQUIPMENT AND MACHINERY

Steam and Power Plants.

Such as engines, boilers, economisers

R. J. PRINGLE, Jt. Secy.
